

Art Loan-Out Program

Hi friends and art lovers,

With our recent move into smaller quarters, we have a few extra pieces of art that really need to find temporary homes. So we are asking if anyone would like to foster a piece or two, or three, until we get a bit more room. There is a link on our website (www.laramelnik.com) with photos of the art.

Most will still be available for sale and we may be contacted through the website. If someone is interested in purchasing, we will contact you to pick up the piece. Likewise, if someone sees it in your house and wants to buy it, they can just call or email us. (667-6116, lara@laramelnik.com)

The artwork should not freeze, and should be hung in a dry, clean location. Also please be careful choose a location where the frame will not be scratched. We ask that the work stays in the Whitehorse area.

Some pieces will have a nail and hook combo attached to the hanging wire – please open the little bag and use the nail and hook for hanging the piece.

Thank you.

Lara

our “care of artwork” info...

Care of Artwork

Thank you for purchasing this piece of art. As with any fine art please choose an appropriate area to display it, away from direct sunlight, dirt and freezing temperatures.

If this work is not framed behind a layer of glass, it's surface may require dusting from time to time. The best way to do this is with a feather duster or compressed air (the canned type). Care should be taken on pieces that have dimensional elements so as not to damage them. Smooth areas can be cleaned with a damp cloth as polymer clay cannot be damaged by water once cured.

Hanging Instructions:

Smaller pieces of work have a simple hole drilled on the board. A small, headless nail (finishing nail) can be used at a 45 degree angle to hang these pieces.

Larger work will have a metal hanger screwed onto the back or have picture wire. These pieces can be hung on a conventional picture hook (nail and hook combo).
